

Nestlé BULGARIA

SAFETY, HEALTH AND ENVIRONMENT POLICY

Our everyday commitment as Food & Beverages Company is to provide our consumers with superior quality while respecting people as the most valuable asset of the Company and placing the highest priority on protecting them and the environment.

We recognize our responsibility and we are committed to being a leader in Health, Safety and Environmental sustainability.

Nestlé Bulgaria will fulfill this commitment by:

- Complying with national legislation and international recommendations as a minimum standard;
- Creating safer and healthier working environment for each employee;
- Promoting and encouraging a culture where occupational Health, Safety and Environmental protection is fully incorporated in our business practices and work activities;
- Providing Health, Safety and Environmental information, communication and training to internal and, as appropriate, external stakeholders;
- Establishing and tracking measurable objectives in safety, health and environmental areas

We encourage all our employees and suppliers to be active participants in good Health, Safety and Environmental practices.

We believe it enables us to contribute to sustainable development without compromising the ability to future generations to meet their needs.
